Extracurriculars

Co-Chair of Program Committee 2024 - 2025
MADE, WUR/TU Delft

Chair of MADE it study association 2025
MADE, WUR/TU Delft

Council member of Faculty Student Council 2024 - 2025
Faculty of Science, UvA

Profile

I am a creative, honest and practical person. I enjoy working on the topics of mobility, innovation and inclusiveness in cities. Moreover, it is important to me to contribute to an accessible and pleasant world. Thoughtful and structured work suits me. Furthermore, I am curious and eager to learn and I do not hesitate to take initiative.

Projects

Digital GIS portfolio Present

GOW30 Decision Making Support Tool 2025
Living Lab course, Msc. MADE
A prototype decision-support tool developed in the Living Lab course to make GOW30 (30 km/h) redesign choices more transparent, comparable, and discussable across disciplines and with the public.

Education

Msc. Metropolitan Analysis, Design and Engineering 2024 - 2026
Wageningen University and TU Delft
An interdisciplinary research master's centered on understanding urban systems and turning research into innovative strategies. Specialized in mobility and accessibility questions, combining Python and GIS-based analysis with stakeholder engagement to develop practical and evidence-based solutions.
Thesis: Developed a neighbourhood-level sustainable accessibility index to assess and compare sustainable accessibility across urban areas. Combined spatial analysis with accessibility research and technical skills to develop a working quick scan to understand the accessibility differences between neighbourhoods on multiple levels (grade 9).

Bsc. Future Planet Studies (Beta-track) 2021 - 2024
Universiteit van Amsterdam
Interdisciplinary bachelor's degree on sustainability, future challenges and innovative solutions. The beta track focuses on earth sciences, ecosystems and technical innovations in sustainability.
Minor: Sustainability Management and Innovation (Vrije Universiteit, grade 8)
Thesis: Developing and testing a novel approach to map geodiversity hierarchical for Texel using GIS techniques (grade 8.4).

Gymnasium E&M 2015 - 2021
Maerlant-Lyceum, Den Haag
Profile paper: I developed an effective lesson program to engage high school students in a fun and informative way with the concept circular economy (grade 9)

Employment

Work student Jul 2025 – Aug 2026
Arup Amsterdam
At Arup, I work in the Cities, Planning, and Design team on projects focused on mobility challenges.
- OVSA: Used GIS and Python to automate KPI outputs, supporting more efficient and structured analysis of mobility-related indicators.

Project Member ESC 2024
Rotterdam, volunteering

Student Chair of Program Committee 2021 - 2024
FPS, UvA

Student Mentor High School Class 2019-2020
Maerlant-Lyceum

HagaMUN 2019
Gymnasium Haganum, Model United Nations

- Amsterdam ZuidasDok: Contributed to pedestrian modelling for a major infrastructure development project.
- Resilience study provincial level: Conducted structured analysis to assess infrastructure resilience and support project research.

Student Assistant Metropolitan Data II course Dec 2025 – Jan 2026
Msc. MADE, WUR/TU Delft
I am supporting the course coordinator in this Master-level course on GIS by answering questions from students and mentoring 3 groups with their GIS project.

Student Representative FPS Jul 2022 – Jul 2024
Universiteit van Amsterdam
In the role of student ambassador, I gave presentations to students at open days or school visits about the bachelor's degree.

Fleet operator Apr 2023 – Apr 2024
MyWheels, Amsterdam
As a fleet operator, I independently drove electric cars for the shared car company MyWheels from A to B throughout Amsterdam. In doing so, I gained a lot of driving experience and support a sustainable passenger transport solution.

Energiefixer Sep 2023 – Feb 2024
Regionaal Energieloket, Amsterdam
I gave advise on what measures people can take to make their homes more sustainable and lower their energy bills as well as installing a few energy saving measures myself.

Exam/additional lessons tutor Feb 2022 - Jul 2023
Lyceo, Regio Zuid-Holland
I gave exam training and tutoring in the subjects of Geography, History and English at every level (from VMBO to VWO). As a head tutor at an exam training course, you are responsible for a class of 20 children and teach a whole day of alternating exam practice.
